

'Advanced Beauty and Hair' - Australian know how with advanced products

An all round beauty program: first a face treatment, then a full body peeling finished with a massage. After hair treatment, cut, highlight or coloring is all possible.

Recently opened beauty salon "Advanced Beauty & Hair" is only a few meters away from one of Palma de Mallorca's busiest shopping streets, Jaume III, just behind El Corte Ingles, in the sunny court yard of Sa Clastra "My own Skincare Centre was always my dream" says Susanne Gabric who was born in Vienna but moved to Australia quite early in life where she lived, studied and developed her 'beauty know how'.

Due the extreme atmospheric conditions in Australia, Australians are well known to have very sensitive skin. Susanne's 'know how' has been developed whilst working with dermatologists and plastic surgeon and treating all kinds of skin types

including problematic conditions such as acne, sun damaged skin, scars and stretch marks.

For cosmetic treatments Susanne is using American cosmoceutical products called 'Ole Henriksen' and 'Murad', both of which she has been working with for years and are available for purchase in her salon. 'Ole Henriksen' have their own beauty Spas in Santa Monica and Beverly Hills, and this Californian flair is now available in 'Advanced Beauty & Hair'. Hollywood stars like Naomi Campbell, Christy Turlington, and Kylie Minogue are all using these products to maintain their skin. 'Ole Henriksen' skin care products are made from completely natural ingredients, and smell absolutely delicious.

The cosmoceutical product "Murad" is based on the results of medical research from the American

dermatologist and pharmacist Dr. Howard Murad who developed a patented series of Anti-Aging Repair System and Sun Protective Agents. These products have received world wide attention because of their effectiveness in the anti-aging progress of the skin.

'Advanced Beauty & Hair' offer hair products from 'Joico', a hair-maintenance collection called "K-Pack Styling". Using these styling products will actually help repair the hair to healthy natural conditions. 'Joico' also offer special colored hair gel for youngest or the more adventurous.

For make-up that complements the skin care programs available at 'Advanced Beauty' Susanne Gabric suggests "Youngblood", a new line of gentle make up made with the purest of ingredients like rice powder, minerals, corn starch ...
